

## VULCANITE.

Dr. Whitcomb is prepared to accept of all the votes upon the Vulcanite. He is a reasonable man, and is using his best efforts to get the vote of the people. He is not less than half the cost of gold.

## THE ELECTION.

The election is progressing quietly at this place. We are quite certain that there has been no disturbance of any kind. The newly enfranchised colored citizens, seem to be enjoying the thing highly, they have paraded the streets with flags and drums from early dawn to dusk and seem to have had a good time. We notice comparatively few white men in town and most of those appear to be indifferent spectators. We have seen quite a number ride in, look on awhile and retire without attempting to go to the polls. From present indications we do not believe that one third of the registered white vote of the county will be polled. We have never known such an apparent indifference manifested by the white people in any election. We are glad to see the colored voters so active and so numerous. We are glad to see the colored vote so active and so numerous.

## LATER.

The music here and all the week about the town. The whole vote of the colored people was 1,418. The regular nominees received 1,200. The opposition ticket received 209. There is not more than one hundred votes against Convention so far, there are very few people in town and the voting we suppose is very nearly through with.

Mr. Geo. W. Chambers requests us to say, that he will remain in town a short time, and all those who wish to purchase the County right or single right, the Patent Collector can do so by calling on him and that Messrs. Knox and Johnson will put them up for \$50 a piece.

## ACCIDENT.

A colored man from the country fell from the second story of the Baptist College. The man fell from the second story of the Baptist College. The man fell from the second story of the Baptist College. The man fell from the second story of the Baptist College.
